

**Homeless people need to Quit Drugs and  
Get A Job of course and are not well  
received in society ... The Government can  
never manage money correctly and SSI is  
not a 100% Secure Source of Income,  
Firing Squad for the Disabled and  
Mentally Ill would be nicer of course it  
would ... Firing Squad for the Blind, Deaf,  
Mentally Challenged/Ill ... Firing Squad  
would be the answer to Homelessness ...  
If a Bum gets a KIOSK he might use Pale  
Moon Portable Binaries on a FAT32, yet  
Police Burned his ID and made him a John  
Doe, and he somehow got a Flash Drive  
from a Freemasonic Jew ... Linux will not  
work on BIOS Passwords DUH ... So an  
ISO9660 of Calculate Linux Not Work ...  
Fat32 > Pale Moon Portable > USB Stick  
That's how they get on the Machine as a  
KIOSK, othe KIOSKS in Plaza Centers  
and in China have a CHMODDED -R 000  
666 System with SPARC/OTHER CPU  
Architecture and Stop the Niggers from  
using the Machine ( #Stoptheniggers ) ...**
